

Hello Copper Community.

Copper Mountain has been my full-time year round home since 2005. Both my parents worked at Copper in the early 70's and I was born in Denver Colorado. I took my first runs in 1976. My mom saved the lift ticket that hangs in my office. In 1993 I moved here to take a break from school with the encouragement of my family. While growing up my parents often shared fun tales and fond memories of their time at Copper. Chuck Lewis instill in them that all the ski areas in the state were great ski hills but what made Copper extra special were the people and that still holds true today.

I have worked for almost 30 years at Copper full time. I met my husband here and we have created an incredible life at Copper; we spend our winters skiing every chance we get and our summers are on the golf course or sailing on Lake Dillon. Copper Mountain is our backyard, our home, and we are proud stewards of this community and mountain.

I started as a lift operator in 1993 and have worked my way up to the Director of Mountain Sports. I lead a business that has over 250 employees and has positive impact to the resorts financial performance which more importantly provides a lifetime of positive memories for so many guests and employees. I am guided by hard work, building relationships, and asking questions. I have helped Copper grow from a front range ski area to a world class resort. That now caters to full time residents, second homeowners, and visiting guests from all over the world. I have firsthand experience on how our infrastructure has changed to provide a safe and welcoming place for homeowners and our guests.

Now I believe it is my responsibility to give back to a place that has given me so much. To be a voice to our ever-growing full-time residents, while continuing to support our second homeowners and guests. My deep understating our resort operations and spending every day in the community gives me a unique prospective to help serve our home. I hope you will give me the opportunity to do so; thank you in advance for voting for me for the Metro District board!

Sincerely,
Kim Shields Casey
