

Hello Copper Community.

Copper Mountain has been the Sprinkle family's second home since the mid 1980's. My children and grandchildren all learned to ski at Copper and have spent considerable time at Copper in the summer as we own condominiums used only by our family. I have enjoyed serving the community by serving as a board member of the Copper Mountain Metropolitan District as well as being a board member of two homeowner associations. I have seen numerous improvements at Copper over forty years which has provided property owner families and guests a better Copper Mountain experience.

The Metro District over the past few years has enhanced fire protection and EMS service to the community and most recently through its participation in the establishment of the new SFE Fire Protection District. More than ever with all the Colorado wildfires Copper it fortunate that SFE established a separate Wildland Fire Division which serves Copper. The enhanced fire and EMS service has been achieved at an overall cost reduction to the Copper community.

For many years, before becoming a Board member of Metro District, I attended numerous Metro District monthly board of directors' meetings as an interested homeowner. This enabled me to have a full understanding of the services provided and related financial aspects of providing community services. With my financial background as a CPA, I have worked closely with the other Board members to maximize community services within the confines of available financial resources with the district maintaining a lower tax level than permitted by Colorado law.

I have listened to many Copper property owners and businesses over the years which has served me well to make tough but good decisions to maximize efficient Metro District services needed by the community to make it a better place for property owners and guests to enjoy the mountain atmosphere. I look forward to being able to continue advancing Metro District services within good financial standards over the next three years if you will give me that opportunity.
